

**✓ Step-by-Step: Enable Computer Use**  
**Step 1: Check Your Claude Settings**  
**Web (claude.ai):**

**Go to <https://claude.ai>**  
**Click your profile icon (bottom left corner)**  
**Click "Settings"**  
**Look for "Feature Previews" section**  
**Find "Computer use" or "Create files"**  
**Toggle it ON if it's off**  
**Click "Save" or "Update"**

**Mobile App:**

**Open Claude app**  
**Tap your profile icon**  
**Go to "Settings"**  
**Look for "Features" or "Beta Features"**  
**Enable "Computer use" or "File creation"**

**Step 2: Check Your Plan**  
**Verify Your Subscription:**

**In Settings, check your current plan**  
**Computer use is available on:**

- ✓ Pro plans**
- ✓ Team plans**
- ✗ May not be on Free plans (varies)**

**If you're on Free:**

**Consider upgrading to Pro (\$20/month)  
Or check if feature is in beta for free users**

### **Step 3: Start a New Conversation**

**Important: Feature enablement may require a new chat**

**Click "New Chat" or "+" button**

**In the new conversation, type:**

**Can you test if computer tools are available? Try  
creating a file in /home/claude/**

**I'll attempt to use the tools and confirm if they work**

### **Step 4: Verify Tools Work**

**Test Command:**

**In a new conversation, ask me:**

**Please create a test file at /home/claude/test.txt with the  
content "Hello World"**

**Expected Response if Working:**

**bash# I would run:**

**echo "Hello World" > /home/claude/test.txt**

**# And confirm:**

**"File created successfully at /home/claude/test.txt"**

**```**

**\*\*If Still Not Working:\*\***

- Tools still show "not found" error**
- Need to troubleshoot further**

**---**

## **## Troubleshooting Steps**

### **### If Tools Still Don't Work**

#### **\*\*Try These:\*\***

##### **1. \*\*Clear Browser Cache\*\***

- Chrome: Ctrl+Shift+Delete → Clear cache
- Refresh Claude.ai

##### **2. \*\*Try Different Browser\*\***

- Sometimes works in Chrome but not Firefox, etc.
- Try: Chrome, Edge, Safari

##### **3. \*\*Update Your Browser\*\***

- Ensure you're on latest version
- Old browsers may not support features

##### **4. \*\*Try the Desktop App\*\***

- Download Claude desktop app
- Sometimes has better tool support

##### **5. \*\*Log Out and Back In\*\***

- Sign out of Claude
- Clear cookies
- Sign back in
- Start new conversation

##### **6. \*\*Contact Anthropic Support\*\***

- If nothing works
- Go to: <https://support.anthropic.com>
- Report: "Computer use tools not available"

## ## 🎯 Quick Verification Test

### Copy This Exact Message in a New Chat:

```\n\n

Please run this test to verify computer tools:

1. Create a directory: `mkdir -p /home/claude/test`
2. Create a file: `echo "test" > /home/claude/test/hello.txt`
3. Read the file back: `cat /home/claude/test/hello.txt`
4. Tell me if all three commands worked

```\n\n

**\*\*If I respond with actual command outputs:\*\*** ✅ Tools are working!

**\*\*If I respond with "Tool not found" errors:\*\*** ❌ Tools are not available
