

Certainly! Here's a step-by-step guide to help you create a new workspace in n8n:

****1. Sign Up for an n8n Account:****

- Visit the [n8n Cloud Sign-Up Page](<https://n8n.io/signup/>).
- Enter your email address and create a password.
- Click on the "Sign Up" button to create your account.

****2. Log In to Your n8n Account:****

- After signing up, go to the [n8n Login Page](<https://n8n.io/login/>).
- Enter your email and password.
- Click "Log In" to access your account.

****3. Create a New Workspace:****

- Once logged in, you'll be directed to your dashboard.
- Click on the "Create Workspace" button.
- Enter a name for your new workspace (e.g., "My First Workspace").
- Click "Create" to set up the workspace.

****4. Set Up Your Workspace Email Address:****

- Navigate to your workspace settings by clicking on your workspace name in the top-left corner.
- Select "Settings" from the dropdown menu.
- In the "General" tab, locate the "Email" section.
- Enter your preferred email address. This email will be used for notifications and communications related to your workspace.
- Click "Save" to update your settings.

****5. Verify Your Email Address:****

- Check your inbox for a verification email from n8n.
- Click on the verification link to confirm your email

address.

****6. Start Using Your Workspace:****

- Return to your workspace dashboard.
- Click on "Create Workflow" to begin building your first automation.
- Follow the on-screen instructions to add nodes and configure your workflow.

****Additional Tips:****

- ****Workspace Management:**** You can create multiple workspaces to organize different projects. To switch between workspaces, click on the workspace name in the top-left corner and select the desired workspace.
- ****Support:**** If you encounter any issues or have questions, visit the [n8n Community Forum](<https://community.n8n.io/>) for assistance.

By following these steps, you'll have your n8n workspace set up and ready for automation projects.
